2011 Junior Golf Program

Objective: The purpose for this program is to help junior golfers learn how to play the game of golf to the best of their ability. Juniors should be taught golf skills, rules, etiquette, basic strategy and be encouraged to practice and play. They should also learn social skills, emotional control and other positive character values. Providing this basic knowledge will give the junior golfer the means to enjoy the game of golf.

Program: The program will consist of a 45-minute clinic by the golf professional and his staff. Once the clinic is completed, there will be a skills competition that will be focused on the instruction from that day. After the competition, the group will then play actual golf on the course. The main objective here is to give the group some exposure to the course and teach them the etiquette of the game. The number of holes played will depend on the age group and this will be outlined at the bottom. The program will last 3 ½ hours each day, 2 ½ hours for the 7-9 age group.

Schedule: The program will be held on Mondays and Wednesdays, and will start the week of June 13th. The program will run 8 weeks with the last day being on August 8th or 10th. (No junior golf July 4th or 6th.)
